

Dear beloved Brethren,

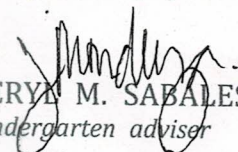

We praise and thank to God for his goodness and love giving us. Thank you so much for your greetings. I hope your in a good health and your family.

In few months pass by, we encounter the pandemic which is covid-19 and our government has strictly implemented of ECQ (enhanced community quarantine) so , we are wearing face mask and face shield and followed the rules . Even we are facing now I believed in god's promise on Luke 1:37 For with God nothing shall be impossible.

From the start, we only have a types of schooling which is modular. And as a teacher in Kingdom Message Ministry School before giving the worksheet to the parents, I oriented them that they will pass the worksheets by the said scheduled and exact day and time because it is the one basis of performance of the children. And if the parents has a difficult to understand they can call me anytime and approach me. And they will submit the worksheets after one week. I observed few weeks pass the parents are well support to their children. When the parents pass the worksheets by week , I asked each of them how the learning of children through. And the parents replied "good" the child has a progress of their learning skills specially in their writings and identifying the letters. I really thanks to all parents for their patience, time, understanding, and effort to assist their children. As of now the giving of modules and passing the the worksheets are going well.

I thanks to Maam Marissa C. Bacquial for her assisting and reminding us. I thanks to Maam Merlinda P. Berongoy for her encouragement and sharing the word of God in order to have a strong relationship to God.

Respectfully yours,

SHERYL M. SABALES
Kindergarten adviser
