

Dear Brethren,

Greetings in the name of the Lord! "Be strong and courageous. Do not be afraid or terrified because of them, for the Lord your God goes with you; he will never leave you nor forsake you." Deuteronomy 31:16

Today's Pandemic plenty of things have changes the way we live before is different from today. the thing that we are use of living is now in change we cannot determine when will be this pandemic end yet we all can do is to pray and be lived on the todays situation and trust the Lord in everything though it is hard for us. Some changes help and realize things that we don't focuses off for we are busy living our life before now this time of pandemic makes people realize that everything can be change in just one click of the hands and realize to value the most important thing and that is the family this time of pandemic it makes a way that the parents help and cooperate to their children learning.

Some of the parents approach me in my Social media (messenger) ask some certain question particular from their module. It is not easy for to the students to learn by their own so we monitor them through text, call and even in the messenger for now situation it is very tough for Butuan is still at risk against the pandemic people can't go out freely they need to follow the protocol of the government in which the person can come out of their house if it is their color code. In that case not all parents can come out on the day of their schedule yet they can get it on the other days. However, we teachers do our best to help the parents and the students as well on their module we contact

them or they contact us if they need some help or clarification. Though in this situation student can still pass their modules on time I can see their progress on their outcomes form the activity that had given to them the scores are increasing.

We pray that the situation will be back to normal so that it is easy for us teacher to teach the students for we prefer the face to face teaching than modular but it is not safe and it is prohibited by the law for this current situation. I am Jay-Ann T.

Mabaga a Grade-7 teacher and I am blessed and glad despite of this pandemic I have a job glory to God that you have given me a chance to work this year.

We hope and pray for the healing of our nations in this time we are not living in fear but we are living in faith.

Sincerely,

  
Jay-Ann T. Mabaga
